COUNTER PLAY

Play or be played

Who would think that the exclusive coastal town of South Point – with its million-dollar coastline, luxury cars and high-end culture – holds in its depths a devious cone where wealth and corruption live side by side. Counter Play uncovers the false identities, blackmail, greed, murder and love triangles that ensue in this dangerously handsome and inebrious city. Spearheading the "must watch" series are mother-daughter duo Chrys and Mikaela Phillips who have not only created but also co-produced it. Counter Play premieres later this year on Channel 9 (900) and Amazon Prime Video. countersplayseries.com
